

# PALLETwall™ Construction Series

PALLETwall™ brings a rustic charm to retail display environments while providing strength and durability necessary when merchandising. Using kiln-dried hardwood, PALLETwall™ is custom manufactured to exact specifications.

The rough, unique textures can be displayed naturally or stained to complement any retail environment. Installation of PALLETwall™ is simplified utilizing Wind Mill's Wind-Cleat™ system. Using standard slatwall accessories makes display, organization, and storage easy.

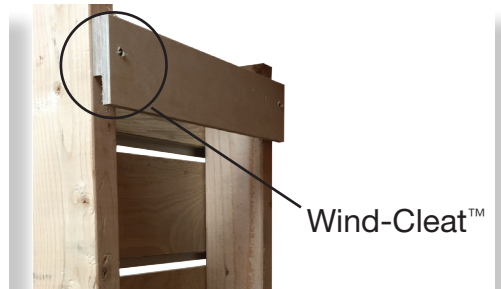

## Installation

Installation instructions are available upon request.

PALLETwall™
■ Utilizes Wind-Cleat™ for installation
■ Custom sizing
■ Uses standard slatwall accessories
■ Strong and durable
■ Rustic charm

## PALLETwall™ Installation Instructions using Wind-Cleat™

1. Determine location where panels will be installed. Use a level to draw a straight line at desired height.
2. When installing over drywall use a stud finder to mark the center of each stud on the pre drawn level line.
3. Attach Wind Mill's Wind-Cleat™ in desired location on wall.
4. Attach Wind Mill's Wind-Cleat™ across back of PALLETwall™.
5. Slide PALLETwall™ into the Wind-Cleat™

PALLETwall™ Wind-Cleat™ System

### Safety First

Use all tools according to the manufacturer's recommendations.

### Necessary Tools

- Safety goggles
- Tape measure
- Stud finder
- Level
- Standard drywall screws
- Drill (screw gun)

### Visit Us For More Information!
