

OSB

“Construction Series”

Oriented Strand Board Slatwall

Product Specifications

Great for environments which specify a natural, green, or new construction look

Wind Mill’s OSB (Oriented Strand Board) slatwall, is free of any of the printed lines or labels that normally come on this type of construction material.

Its rugged look is perfect for that outdoor, or sporting goods retail environment. Optional aluminum inserts in your choice of color, will add beauty and strength. OSB slatwall will accept stain or paint, and looks great with our clear finish option.

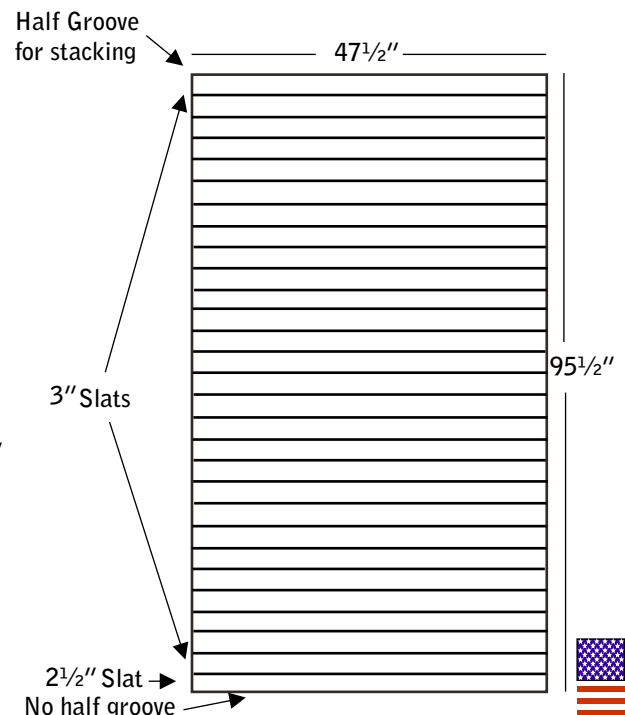

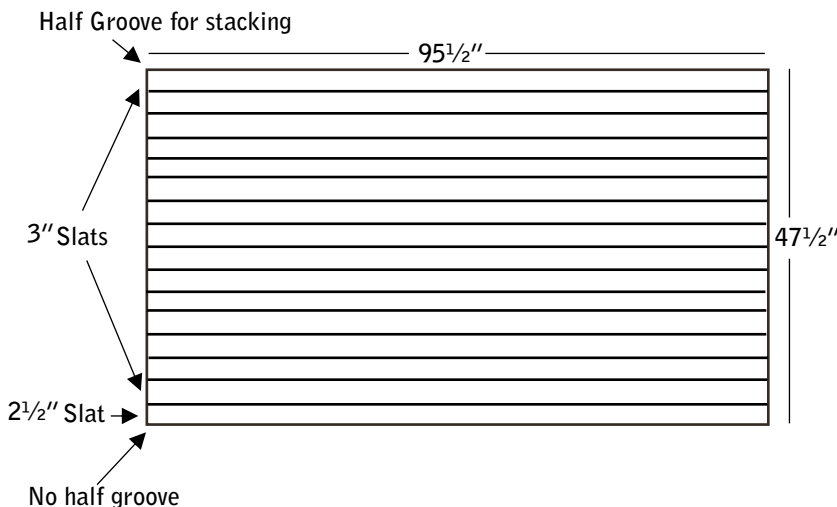

OSB with plain groove

Clear coated OSB with metal groove

- Final size will be 47½" x 95½" (The grooves can be cut to run in the long or short direction).
- The panels can be stacked two high or they can be cut down to 45"H x 95½"L, creating two half grooves allowing the panels to be stacked multiple times.
- Wind Mill’s slatwall accessory line fits with or without the aluminum inserts.
- Minimum purchase of 5.
- Made with Anchor™ Core substrate only.
