

Slatwall Simple-Sert[™] Metal Insert Retrofit

Made in America

Slatwall panels work as plain grooved panels, and can also accept the addition of the Simple-Sert[™] metal inserts. Installing the Simple-Sert[™] metal insert doubles the strength of the groove.

Fits in the back of the grooves

- Fits any standard slatwall groove
- Easy to install, they double the strength of the grooves
- Adds a decorative metallic accent to the grooves
- Available in 96 inch lengths
- Is an economical alternative to other metal inserts
- Accepts most standard metal slatwall accessories
- Call Wind Mill's Project Management Team to learn more
