

# Metal Series: Aluminum and Steel Slatwall

Metal Series: Aluminum and Steel are an interlocking system that forms a continual wall of aluminum or steel without visible fasteners or horizontal seams.

This interlocking system, along with its variety of finishes and colors, provides unlimited design choices. Aluminum and Steel slatwall is available with multiple slat-spacing options as well as single or double-sided. Trim, finishing edges, corners, tops, and bottoms are easily matched to the interlocking slatwall system. Fasteners are concealed adding a professional look to the Metal Series slatwall system. For additional visual merchandising appeal, various slat finishes and colors can be combined to create an eccentric mix.

The clean, professional, and organized appearance of Aluminum and Steel, along with its incredible strength of 50 pounds per linear foot and supreme durability makes it an exceptional value.

### Installation

Contact our expert Project Managers for installation information.

## Metal Series:

Wind Mill's Metal Series slatwall provides a range of metal options, whether you choose our standard slatwall with a Brush Aluminum Melamine finish or move up to DecoMetal HPL with its lustrous color and sheen with textures reflecting energy. You will experience the craftsmanship and strength Wind Mill slatwall and display panels has been known for. Our exclusive Anchor™ Core is 50% stronger than slatwall made with medium density fiberboard (MDF) core.

When the need arises for a solid Aluminum or Steel slatwall solution we have that covered as well. Aluminum and Steel slatwall offer an interlocking system that forms a continual wall of metal without visible fasteners or horizontal seams. Contact our expert Project Manager for assistance selecting the perfect Metal Series solution.

### Brushed Aluminum, Melamine

Wind Mill Standard Slatwall is available in Brushed Aluminum. This attractive TFO gives the appearance of real brushed aluminum metal at a fraction of the cost, while providing a durable metal look. Add milled aluminum T-serts™ to complete the look of a metal wall of while adding considerable strength.

Standard Slatwall panels measure 48"H x 96"L x 3/4"W with the grooves running either the entire length or height of the panel, evenly spaced 3" on-centers. Manufactured with our exclusive Anchor™ Core, or MDF (medium density fiberboard).

### DecoMetal, HPL

DecoMetal HPL is a real metal laminate that comes in a wide variety of metals and textures. DecoMetal delivers lustrous color and sheen with textures reflecting energy, modernity and a feel for craftsmanship. Complete the design treatment with milled aluminum or custom finished T-Serts™.
